# **Recruit Firefighters Graduate State Firefighting Academy**

State Fire Marshal Stephen D. Coan and Massachusetts Firefighting Academy Director Laurent R. McDonald are pleased to announce the graduation of the 173rd Class of the Massachusetts Firefighting Academy's sixty day Recruit Firefighting Program on September 29, 2006. Coan said, "This rigorous professional training provides our newest firefighters with the basic skills to perform their jobs effectively and safely." The Massachusetts Firefighting Academy, a division of the Department of Fire Services, offers this program, tuition-free.

#### 72 Graduates From 40 Fire Departments

The seventy-two graduates, four women and 68 men, represent the forty fire departments of: Amherst, Bedford, Belmont, Beverly, Blackstone, Bridgewater, Cambridge, Danvers, Dracut, Framingham, Franklin, Gloucester, Greenfield, Halifax, Hanover, Haverhill, Ipswich, Leominster, Lexington, Lincoln, Lowell, Mendon, Norfolk, North Andover, North Attleboro, Northborough, Randolph, Raynham, Rockland, Sandwich, Southborough, Stoughton, Tewksbury, Wakefield, Watertown, Westfield, Westport, Wilbraham, Woburn, and Yarmouth.

### Lieutenant Kevin M. Galligan Guest Speaker

Lieutenant Kevin M. Galligan of the Brockton Fire Department, who is also a Massachusetts Firefighting Academy instructor, addressed the recruits.

## **Today's Fire Department Does Much More than Fight Fires**

Today's firefighters do far more than fight fires. They are the first ones called to respond to chemical and environmental emergencies ranging from the suspected presence of carbon monoxide to a gas leak. They may be called to rescue a child who has fallen through the ice or who has locked himself in a bathroom. They rescue people from stalled elevators and those who are trapped in vehicle accidents. They test and maintain their equipment, ranging from self-contained breathing apparatus to hydrants to hoses, power tools, and apparatus.

At the Massachusetts Firefighting Academy they learn all these skills and more from certified fire instructors who are also experienced firefighters. Students learn all the basic skills they need to respond to fires and to contain and control them. They are also given training in public fire education, hazardous material incident mitigation, flammable liquids, stress management, water rescue procedures, confined space rescue techniques, and rappelling. The intensive, twelve-week program for municipal firefighters involves classroom instruction, physical fitness training, firefighter skills training and live firefighting practice.

#### **Basic Firefighter Skills**

Students receive classroom training in all basic firefighter skills. They practice first under non-fire conditions and then during controlled fire conditions. To graduate, students must demonstrate proficiency in life safety, search and rescue, ladder operations, water supply, pump operation, and fire attack. Fire attack operations range from mailbox fires to multiple-floor or multiple room structural fires. Upon successful completion of the Recruit Program all students have met national standards of National Fire Protection Association 1001 and are certified to the level of Firefighter I and II, and Hazardous Materials First Responder Operational Level by the Massachusetts Fire Training Council.
